

## BNC-HB1

Data transfer checker can check the interlocking on SEMI E84 beforehand!

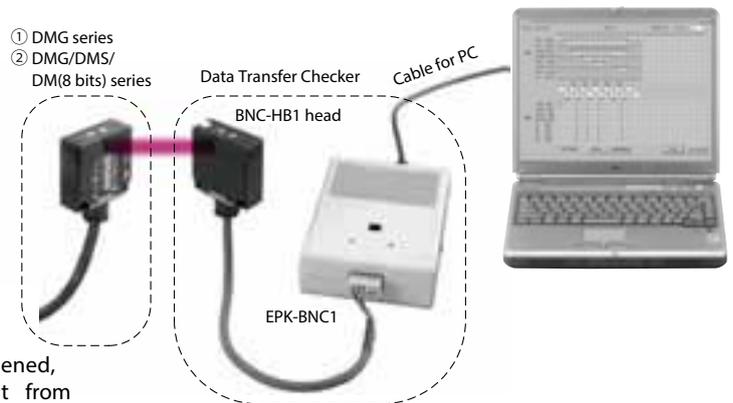

Data transfer checker provides the following 2 kinds of application software(Hokuyo Data Flex SFOC and RIS).

### 1. Hokuyo Data Flex SFOC

When some troubles such as interlocking etc. happened, memorized data(Communication data) can be read out from DMG series and its data can be displayed on PC. Refer to the above ① about correspondent devices.

### 2. Hokuyo Data Flex RIS

Under automatic transportation system on semiconductor and LCD manufacturing facilities, it is possible to make data communication as imaginary UTV(AGV, RGV, OHT etc.) or fixed passive equipments on the interlocking system with parallel I/O between UTV and passive equipments. Refer to the above ② about correspondent devices.

### Structure

Basic unit(Complete model No.)

Model No.	Structure
BNC-HB1-S	BNC-HB1 Head EPK-BNC1 Power box AC adaptor(Cable 2m) Cable 300mm for BNC-HB1 (for connection to PC) BNC-HB1 Application software (SFOC/RIS)

Head and others(As an option)

Model No.	Remarks
BNC-HB1	Head
EPK-BNC1	Power BOX
AC adaptor for BNC-HB1	Cable length 2m
Cable for BNC-HB1 (Standard type)	For PC connection(300mm)
Extension cable for BNC-HB1	For head connection(3m)
	For head connection(6m)
BNC-001	Mounting bracket

### Specifications

BNC-HB1 Head

Type	Parallel type
Model	BNC-HB1
Direction	Side-on
Transmission distance	300mm
Case material	Polycarbonate
Weight	Approx. 60g

EPK-BNC1 Power box

Model No.	EPK-BNC1
Power source	Built-in rechargeable battery(Charging from AC Adaptor)
Battery life	4 hours(When continuous use)
Charging time	Approx. 16 hours
Current consumption	100mA or less
Weight	Approx. 300g

### Cable for BNC-HB1

<b>Type</b>	<b>Connection for PC</b>
<b>Connection</b>	300mm EIA-574(RS-232C 9 pins connector)*
<b>Weight</b>	Approx. 45g

\*Cable length between BNC-HB1 Head and PC should be within 6m.

### BNC-HB1 Application software

Model	Hokuyo Data Flex SFOC	Hokuyo Data Flex RIS
<b>Function</b>	Communication data(Logging data) is read out from DMG series	It is possible to make data communication as imaginary UTV(AGV, RGV, OHT etc.) or fixed passive equipments under automatic transportation system.
<b>Display method</b>	Timing chart	
<b>Check mode</b>	_____	Automatic mode, Manual mode
<b>Operating pattern</b>	_____	E84 standard, Custom pattern

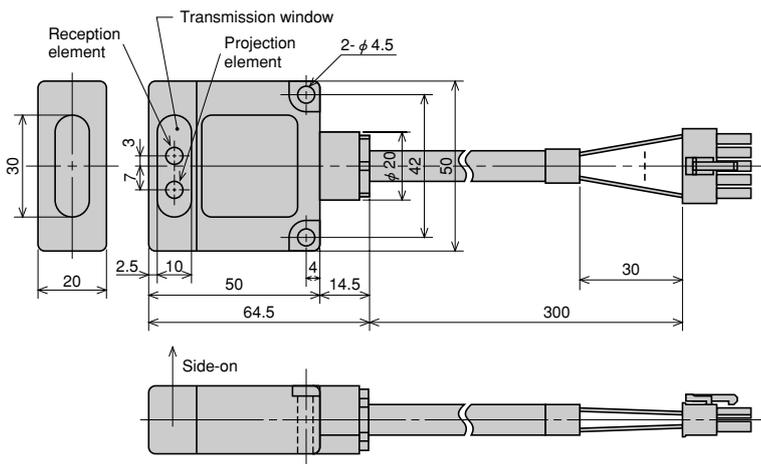

### Common specifications

<b>Ambient illuminance</b>	4,000lux or less(Incandescent lamp)
<b>Ambient temperature/humidity</b>	-10°C to +50°C, 85%RH or less
<b>Vibration resistance</b>	Double amplitude 1.5mm 10 to 30Hz Each 2 hour in X, Y and Z directions
<b>Impact resistance</b>	500m/s <sup>2</sup> Each 10 time in X, Y and Z directions
<b>Max. cable length</b>	Between head and PC: 6m or less*
<b>Protective structure</b>	Non protection

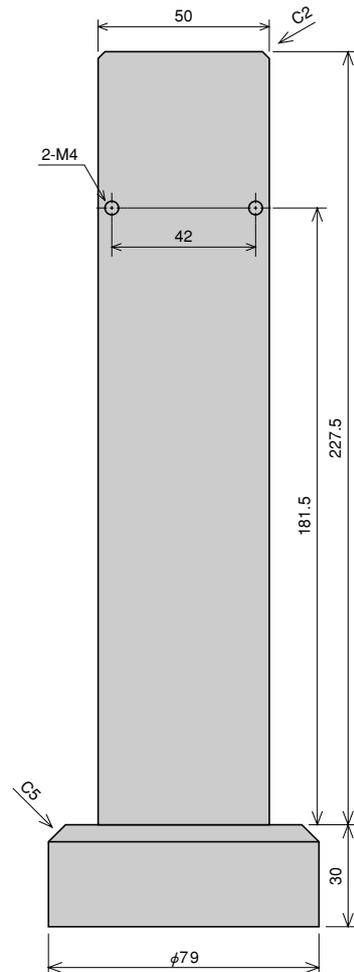

\*Extension cable(between head and power box) is available as an option. Aks us.

### External dimensions

#### BNC-HB1(Head)

#### BNC-001(Bracket)

#### EPK-BNC(Power box)
