Connectors for Off-Road

SOURIAU

Connectors for Off-Road

Typical Applications

SOURIAU products are designed and manufactured to withstand the challenges and diversity of harsh environment Off-Road applications. Vehicle and equipment manufacturers trust in SOURIAU as their reliable yet easy-to-use interconnect solution for applications ranging from critical core engine functions to on-board assistance systems, peripherals and accessories.

SOURIAU Technical Solutions

Unrivaled Physical, Chemical and Mechanical resistance.

Reliable All-in-One Solutions

Mixed Signal/Power (Ethernet, CAN Bus compatible)

Waterproof & Prevents Mud & Dust Ingress

Dynamic IP68/69K Mated/Unmated

Secure & Quick Locking

1/3 turn Locking or Latching

Easy Factory & Field Assembly, Installation or Maintenance

Flexible conduit adaptors, single wire sealing, overmolds, screw terminations

Prevents Contact Damage During Mating

Scoop Proof Design

Resists Repetitive Mechanical Stress & Impacts

Shock & Vibration-proof Design

Long Outdoor Life Expectency

UV & Corrosion Resistance

Comprehensive Products, Solutions & Capabilities

Waterproof Plastic
UTS Series

Robust Metal & Shielded
UTO Series

Highly Rugged Metal
UTV Series

Versatile Rugged Plastic
Clipper Series

Diverse series of Heavy-Duty
851 Series

Intensive Mating / Unmating
UTL

Please contact us for more information and details on our comprehensive offering of standard or custom overmolded cable assemblies.
