

Encoder (brand Leine + Linde) included,
electrical data: see cable scheme

Coupling and assembly of the encoder included
Anti rotation bar not included

Gold/Gold contacts only

N° of circuits: 3x signal ; 5x power
Voltage max: signal: 24 VDC; power 400VAC
Current max. p. Ring: signal: 1A; power 70A
R.P.M. max: 50
Protection Class: IP 65
Connection: cables on both sides
encoder cable on rotor, heater cable on stator
Temperature Range: -30°C / +65°C with heater 230V/50W

On-Shore version
