CABLE BUN

Lightweight, easy handling, highly visible cable buns are proving to be the preferred choice in high voltage power cable suspension.

FEATURES

- Controlled radius helps prevent high voltage power cable damage and breakage.
- Carbide friction strip embedded into the inner radius of the body eliminates cable slip.
- Specially designed sling used in a 'choker hold' position clinches the power cable and hold it in place.
- Constructed from a hard wearing polyurethane, therefore impervious to harsh weather conditions.
