

Data Sheet for Joysticks

Desktop Joystick

Series MACH IV

- Several handle versions
- Desktop housing with customizable number of pushbuttons
- Optionally with USB interface

The Mach IV series is the solution for applications asking for joysticks with two or three axes confined within a desktop housing. The desktop housing provides the possibility to integrate pushbuttons for further application specific operations.

Kindly note that the joysticks of series 812 and TRY100 can also be combined with this desktop housing.

Technical Data

Angle of Movement X-,Y-Axis	±30° from center
Angle of Movement Z-Axis	±45° from center
Return to Center	±2%
Operating Force	< 60mN
